AUDIENCE INTERESTS

OUR VISION

To inspire, educate and activate

- We believe that a better world is possible through creativity, innovation and design
- Our mission is to grow this ideology by sharing inspiration and information on how others are achieving this goal
- In doing so we hope to activate others into creating measurable change in their communities, using design and creativity as tools

OUR CONTENT STRATEGY

African innovation meets global design principles

- Our new strategy launched in July 2014
- We feature a 60/40split of African and global creativity through the lens of the work and opinions of industry experts and emerging talent
- 20 new articles, videos and photo galleries each week
- All original, highly curated, top-quality content
- We have an activist orientation, not just a journalistic focus
- We want to use our platform as a driver of change and to harness design and innovation to serve people
- Our content is sourced from the leading thinkers, analysts and doers in the creative firmament

POINT OF DIFFERENCE

Our Conference Talks are a key differentiator from other design publications – these videos feature world leaders across the creative sectors. **Average dwell time: 19 minutes**

Michael Bierut: five lessons on graphic design

RECENT GROWTH

In just 2 months of launching our new content strategy we saw impressive growth:

- 43% increase in visits/sessions
- 39% increase in unique visits
- 26% increase in page views

And after launching our new site design (31 August), we have seen a further:

- 18% increase in page views
- 21% increase in pages per session
- 33% decrease in bounce rate

ANNUAL GROWTH

Every year designindaba.com experiences a massive traffic influx around the Design Indaba Festival

Traditionally our traffic doubles over this period

In 2014, February and March each reached between **80 000** and **120 000** monthly visits

Based on this, February and March 2015 should see between **100 000** and **150 000** visits – but likely more

With our new content strategy we aim to sustain this traffic after the event by converting event visitors to all-year-round readers

OUR CHANNELS

In order to engage our diverse, widespread audience we share our content with them on the platforms they are already using

OFFICIAL MEDIA PARTNERS

BRAND PARTNERSHIPS

Design Indaba offers a wide range of custom branding opportunities

CONTENT SPONSORSHIP

Use original content to drive brand interest and loyalty. We'll produce a bespoke series of articles, videos or photo galleries that aligns with your brand values and the audience interests. Or underwrite an existing series such as Product Spotlight, Track of the Week or Filmfestfriday (full list on request).

Branded series presented as “Bought to you by...”

NATIVE ADVERTISING

Use Designindaba.com to share your brand's stories.

Supply us with an article or video and we will customise and publish on our platform and use our newsletter and social media channels to promote and share it.

Need help with copy? Our content specialists can help

TRADITIONAL ADVERTISING

While content outperforms advertising in terms of engagement, relevant content programmed strategically with your advertising makes your advertising work harder for you.

We offer: a home page takeover, standard ad units and pre- or post-roll video ads

BESPOKE PACKAGES

Benefit from the best of all worlds and partner with us on a unique sponsorship package that includes elements from some or all of our branding opportunities

For example: combine a sponsored content series with an article about your brand and promote it with banner advertising and social media

WHY SPONSOR CONTENT?

Content marketing is the new advertising for brands driven by storytelling who engage in dialogue with customers or clients

- Demonstrate relevance as industry leaders beyond self-promotion
- Benefit from the “halo effect” through brand alignment
- Use thematic alignment to associate your brand with core industry values
- Avoid the hassle and expense of in-house content production
- Reap the benefits of a trusted platform
- Access an existing audience already invested in your brand values
- Grow the trust of potential customers
- Don’t trick people into following your brand but do so through adding value
- Branded content has a far higher engagement rate than online advertising
- Tried and tested internationally: The New York Times and Mashable report that time spent on branded content is longer than editorial content
- This is not advertising: it is high-quality journalism owned by brands
